SWIM-INFR-07 — Ground/Ground SWIM technical infrastructure for civil-military SWIM-based non high-critical exchanges

This SYS EN is dedicated to the SWIM Technical Infrastructure Green Profile (GP) aiming at supporting ground/ground civil-military SWIM-based non high-critical exchanges.
In Wave 1, the baseline for GP is the Eurocontrol Yellow Profile (YP) 1.0 specification. GP encompasses Quality of Service (QoS) extensions to YP 1.0 to enable a wider scope of SWIM services requiring more security, resilience, performance (time-constraint SWIM services) and the support of sensitive data.
Civil and military stakeholders willing to use SWIM services requiring this extended QoS should deploy GP SWIM nodes (technical systems).
