

REG-0526 — Regulatory provisions for Minimum-Pair separations based on RSP (Required Surveillance Performance)

Regulatory provisions (produced by the competent regulatory authority) that relate to the minimum of separation minima to apply to cope with surveillance performance. These regulatory provisions consists in defining minimum requirements for allowing 2.0NM minimum radar separation for both arrivals and departures operations.

"Regulatory provisions" refers here to advice from the regulatory authorities on the acceptability of a safety case supporting an ATM rule modification.
