

CM-0304 — Sector Team Operations Adapted to New Responsibilities in the TMA/eTMA, 1 Planning to several Tactical Controllers team structure

New operating procedures are in place such that the Planning Controller provides support to several Tactical Controllers operating in different sectors; traditional inter-sector coordination procedures are maintained. In this configuration, the Planning Controller ensures suitable coordination agreements between sectors and assists in managing the workload of the Tactical Controllers, thus ensuring that potentially critical traffic situations and the associated workload are manageable for the Tactical Controllers at the time of occurrence.

Rationale New opportunities for the utilisation of operational staff are offered along with the increasing sophistication of ATC support tools. This will provide improvement in cost effectiveness

Forecast V3 end date 30-09-2019

Benefits start date (IOC) 30-09-2026

Full benefits date (FOC) 30-09-2030
