

IS-0401 — Automatic Terminal Information Service Provision through Use of Datalink

Compiled ATIS information specifically relevant to the departure, approach and landing phases of flight (such as runway in use, current weather, airport and facility conditions) is transmitted to the aircrew by datalink. ATIS messages (synthesised voice) can be generated fully automatically or at the controller's request.

Rationale None

Forecast V3 end date -

Benefits start date (IOC) 31-12-2007

Full benefits date (FOC) 31-12-2013

Current Maturity Level -

Solution Data Quality Index -

Current Maturity Phase R&D Finalised

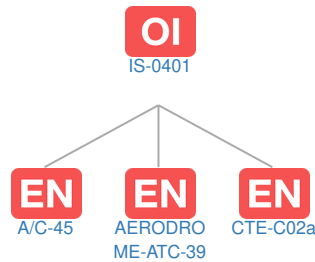

Scope Local
