

# SDM-0102 — Civil-Military Cooperation Performance Assessment

Implement, monitor and secure a combine use civil-military KPIs on effective use of the civil/military airspace structures, mission effectiveness and performance of FUA application in order to increase capacity with due regard to the military mission effectiveness. The agreed civil-military KPIs on requests, allocation and actual use of airspace structure are monitored, deviations are highlighted and used to take suitable actions as to continuously enhance civil-military cooperation and coordination. Implement and monitor a performance of FAU operations and ATM impact on military mission effectiveness within the context of civil-military performance based partnership. FUA indicators are in use. However, they address only a civil perspective of CDR utilisation

**Rationale** Today, there is no consistency and transparency in ATM performance measurement in respect to civil-military operation. Civil-military KPIs do not exist yet.

**Forecast V3 end date** -

**Benefits start date (IOC)** 31-12-2011

**Full benefits date (FOC)** 31-12-2015
