

# CM-0307 — Sector Team Operations Adapted to New Responsibilities in En-route, Single Person Operation

*As a complement to the Multi Sector Planning operation where a single Planner Controller is supporting several Tactical Controllers, in certain circumstances the role of planning and execution for an En Route sector can be undertaken by a unique controller, the SPO (Single Person Operator).*

**Rationale** New opportunities for the utilisation of operational staff are offered along with the increasing sophistication of ATC support tools. This will provide improvement in cost effectiveness.
