

AO-0201-A — Enhanced Ground Controller Situational Awareness in all Weather Conditions with ADS-B

Enhanced Ground Controller Situational Awareness in all Weather Conditions is further enhanced with the use of ADS-B applications which improve accuracy in target positioning of the traffic within the controller sector.

Rationale Thanks to availability of additional surveillance information coming from ADS-B, it becomes possible to provide more reliable information to the controller.
Safety and performance are improved as this operational improvement will bring higher accuracy on target positioning.

Forecast V3 end date -

Benefits start date (IOC) 31-12-2020
