

AUO-0615 — Traffic Alerts for Pilots during Taxiway Operations

The on-board system detects potential and actual risk of collision with other aircraft traffic during taxiway operations and provides the Flight Crew with the appropriate alert.

Rationale An on-board airport safety net will improve safety in taxiway operations, mostly at airports where no safety net is provided to controllers.

Forecast V3 end date 30-09-2019

Benefits start date (IOC) 08-08-2024

Full benefits date (FOC) 30-07-2029
