

POI-0027-NAV — Enhanced interoperability and efficiency of GBAS infrastructure (operation and maintenance)

Optimization of airport infrastructure use through standardized ATC and Maintenance interfaces and through harmonized GBAS service data usage.

Rationale This POI covers the benefits achieved by standardizing the data set to be transmitted from the GBAS GS, as well as standardizing the integration of the system in the ATM infrastructure. It provides cost reduction, interoperability, and enhances the conformity of data usage.

Forecast V3 end date 31-12-2022

Benefits start date (IOC) 31-12-2029

Full benefits date (FOC) 31-12-2033
