

Solution PJ.07-W2-38 — Enhanced integration of AU trajectory definition and network management processes

The objective of this Key R&D activity is to reduce the impact of ATM planning on Airspace Users, costs of operations, by providing them a better access to ATM resource management and allowing them to better cope with ATM constraints. This shall improve Airspace Users flight planning and network management through improved FOC participation into the ATM network collaborative processes in the context of FF-ICE and its potential evolutions.
